Grangers Depressed by Reported Injury to Corn Crop-At Indianapolis Wheat Is Dull, Corn Steady.

At New York, yesterday, money on call was easy at 1 per cent.

Prime mercantile paper, 305 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.88%@4.881/2 for demand and \$4.87%@4.87% for sixty days; posted rates, \$4.88@4.89; commercial bills, \$4.86% (4.86%)

Silver certificates, 64665c. Bar silver at New York was 62%c per ounce; at London, 28 11-16d per ounce, and Mexican dollars, at 28%d, were in demand in connection with the Corean war. Silver was also wanted for the French mints and prompt shipment.

Total sales of stocks reached 117,203 shares, with Sugar having 85,300 of the amount and St. Paul 18,000. The result of yesterday's trading on the Stock Exchange was the establishment of a lower range of values in the greater portion of the snares traded in, the only prominent exceptions being Sugar and Iowa Central preferred, both of which are I per cent, higher toan at the close Tuesday. The volume of business was light, but was better distributed than usual, with Sugar in the lead, St. Paul, Distilling, Chicago Gas, Burlington & Quincy and Missouri Pacific coming next in the transactions. In no other stock did the sales exceed 3,900. London was a small buyer of St. Paul in the early dealings, and later sold a few nundred shares of that stock, but was not in the market otherwise. In the Sugar pool there was jubilation over the failure of the Senate Democratic caucus to reach a compromise. There was good buying at the opening, and an advance of 11/2 was made before 10:15 o'clock. Washington advices to the effect that another conference was on, which was likely to bring about some agreement, checked the purchasing movement in the shares and induced sales under which the entire improvement was lost by 11 o'clock. During the rest of the day the stock was erratic, moving within a narrow range, but making gains which at hie close reached 1 per cent. Reports of injury to the corn crop by excessive hot weather depressed the grangers, all of which closed at the lowest of the day, making losses of 1 in Rock Island, % in St. Paul and Burlington & Quincy, and ¼ in Northwestern. There was a question raised as to the payment of a dividend on Rock Island for the current quarter, and the bears are now questioning whether St. Paul and Burlington will pay dividends at the regular rates. Distilling rose % in the opening dealings, but the rise brought out large offerings, which forced the price down 14, with a final rally of 14. The bears tried to hammer down Chicago Gas during the morning on a report that the Universal company was prepared to start in to lay its mains within thirty days, but the shares were well supported and only receded %. In the early afternoon there was an advance of %, of which % had been lost at the close. Liquidating sales caused a de-

and on sales of 500 shares broke 314 without a rally. The railway and miscellaneous bond market was generally weak and lower, the principal changes on the day being: De-clines-St. Louis & San Francisco general sixes, 6; Atchison fours, 1%; Colorado Midland fours, Fort Worth & Denver City firsts, 112; Louisville & New Albany consols. Rio Grande Western firsts, 1 per cent. Advances-Illinois Central three-and-onehalfs, 1 per cent.

LOCAL GRAIN AND PRODUCE. Business Continues in a Stagnant

Condition-Wheat Easy-Corn Strong. Trade was dull all along the line yesterday. There was scarcely enough business doing to keep shipping clerks awake. In ests. Its interest, of course, is to save | prices of staple goods there was no change whatever, and with the dullness ran an equal degree of firmness and steadiness. There is nowhere an overstock of manufactured goods, and holders are not anxiou, to part with their stocks at concessions in prices, while feeling that the goods now on hand will be wanted at full prices before their place can be taken either by new manufactures or fresh imports. In produce, produce and vegetables there was no change of any sort. On 'Change no business of consequence was transacted. Wheat was easy, under lighter receipts, while corn was still strong, with higher prices in some grades and an advancing tendency on all. Rye was lower. The receipts included only thirty-nine cars of corn, of which twenty-six graded No. 2, and twenty-six cars of corn, mostly No. 2 white. The closing bids on 'Change were: Wheat-No. 2 red, 44%c; No. 3 red, 42c; wagon wheat, 45c. DEBS'S NEW SCHEME.

Merely a Strike Organization, with No Redeeming Qualities.

Chicago Herald. Debs, with the other land pirates and guerrillas who are his associates, has now commenced a general war on organized labor in all directions. He has planned and begun a campaign against all the unions in the Federation of Labor. He has determined to destroy all the nor liway labor organizations as he destroyed the switchmen's union and attempted to destroy the

other railway unions. For this purpose he has established the American Labor Union. Anybody who claims to belong to a trade can join it without paying a cent. There is a nominal admission fee, but its payment is not demanded, and no member is dropped for nonpayment of fees and dues. It has no relief features. It is a mere strike organization, to make war on all the industries

and business of the country. This is the vast plan of sedition, lawlessness and mischief which has been evolved in Debs's delirious brain. The conspiracy has the elements of delirium tremens, in the insane vagaries and impulses of which it had its origin. The scheme bears the marks of alcoholic frenzy and dementia in all its features.

It cannot be possible that the sensible, peaceable, law-abiding, reputable men at the head of the existing labor organizations will countenance this scheme for their overthrow and destruction. The existing labor unions are allied to the industries and to business in all sections. If they should be disrupted and destroyed by a general labor union founded on the plan of Debs's bandit railway union

it would be a calamity of uncommon proportions. There is no war against organized labor except that which Debs has declared and has prosecuted with mischievous energy since his appearance in Chicago. Reputable labor in this city and elsewhere has but to read the whining, babyish answer that this overestimated fellow made yesterday in the United States Court to reach a correet conclusion as to his character and capacity.

There never was a weaker or more cowardly defense for crime. There never was a more sneaking and contemptible excuse for lawlessness and folly. There never was a more craven exhibition by a creature aspiring to be a hero. . This Debs and his associates are cheap and paltry knaves by their own confession.

DECLINED OVER NIGHT

WHEAT, CORN AND OATS ALL DOWN FRACTIONS OF A CENT.

Chicago Market Weak and Indications that the Bottom Has Not Yet Been Reached in Cereals.

CHICAGO, July 25 .- Better cables and advancing outside markets firmed wheat up early in the session to-day, but the price broke later and September closed %c lower than last night. Corn closed %c lower, oats 1/sc lower and provisions slightly higher. There was a fair trade in wheat during the first part of the session, but only ordinary interest displayed later in the day. The feeling was fairly steady. Initial trades were at 53%c for September, at %c advance, eased off %@%c, rallied %c, changed some and closed steady at 531/sc. The early strength was attributed mainly to the steadier cables, advance at outside markets, the rather smaller movement, today's receipts falling short of the estimate some 86 cars, and the bulletin from the spring wheat districts, showing a light yield in that section. The early action of corn also helped to a minor extent. First cables quoted spot quiet and steady and futures dull to firm at unchanged prices. The rather liberal exports were something of a factor, and aided the advance. Toledo reported the loading of another small boat with wheat to be shipped to this market, and this, with the prospect of more favorable weather, caused the decline in the latter part of the session.

Opening trades in corn were at 140%c advance, at 41%c for September, and, after selling up a fraction more, eased off 380 1%c, rallied %c, declined %c and closed at 431/4c. The feeling at the start was decidedly stronger, with the country buying freely, receivers and commission houses being on the buying side, and the weather dry and hot all through the Middle and Western States. The price held fairly steady until the prediction was announced for rain in Iowa and Nebraska, when the price receded sharply. Oats were firm early on good buying and unfavorable crop reports, but weakened later with wheat and corn. The range was for September.

Provisions were dull, with no sales in pork. The market was firm on scarce offerings and light receipts of products. Compared with last night, September lard is .021/2c higher and September ribs .05c Freight rates quotable at %c, wheat or

corn, to Port Huron or Buffalo. The estimated receipts for to-morrow are: Wheat, 450 cars; corn, 260 cars; oats, 140 cars; hogs, 27,000. Leading futures ranged as follows: Open- High- Low- Clos-

cables, were the causes of the weak prices in wheat to-day. The market closed: July. 54%c; Geptember, 51%c; December, 53%c. On track: No. 1 hard, 58%c; No. 1 Northern. 574c; No. 2 Northern, 554c. Receipts for the last twenty-four hours, 89,050 bu; shipments, 52,359 bu. As mills were grinding about 120,000 bu for the twenty-four hours, there would be quite a large decrease in local supplies for the day. Still, the stocks are large here, and wheat would be plentiful to grind if the elevators would turn it out freely, but they are not doing so, as they are holding it evidently for future grinding in some instances and in others for the earnings of storage. The flour market was easy, in sympathy with wheat, and quoted at \$3.20@3.45 for patents and \$2@2.20 for bakers'. It was estimated that the production for the day would be about 28,000 bris, with shipments of 31,083 bris.
